FREE DENTAL CLINIC

for kids ages 3yrs - 18yrs!

Flexible Appointment Times During February and March 2022!

- Flexible appointment times for the annual clinic are being offered during February's Children's Dental Health Month as well as in March to support families during the pandemic.
- Assistance will be available for future dental services and insurance/payment sources.

To support children's dental health needs, local dentists and their staffs will volunteer their time and materials to provide ***free*** dental exams and limited services to children ages 3-18 who are **under-insured** (Medicaid/Title19) **or uninsured and have an economic need**. A parent/guardian needs to call one of the offices by February 1st to schedule an appointment. The total number of appointments will be limited and will fill up quickly! Parent/guardian attendance is strongly encouraged, but if one cannot attend the appt with the child, a consent form must be completed at the dental office prior to the appointment.

Call one of the offices below to make a FREE Dental Clinic appointment:

Dental Associates, 902 Park St., Grinnell: **641-236-6174**

Family Dentistry, Grinnell Office, 825 Broad St., Grinnell: **641-236-6169**

Family Dentistry, Montezuma Office, 105 S. 4th St., Montezuma: **641-623-2013**

Family Dentistry, Victor Office, 208 Washington St., Victor: **319-647-2141**

HELP IS available. If there is a financial reason that a child is not able to have a dental visit or if there is a transportation barrier, please contact the Poweshiek County Dental Coalition throughout the year. We can help.

ADDITIONAL RESOURCE:

I-Smile is a resource in Iowa for help with securing a dental home. The Poweshiek Co Dental Coalition teams with I-Smile to ensure children have access to dental care. The local I-Smile Coordinator can be reached at 641-828-2238, ext 161.

* Previously available free dental screenings are not currently being provided at WIC clinics due to the pandemic. Please contact I-Smile or the Poweshiek County Dental Coalition with concerns related to dental health care access.
