Date: September 8, 2021 Grade Level: 9th	GHS Seminar
Recommended Sequence	**Seminar Meeting**
Objective(s) / Learning Target(s):	1. Students will start their GHS Seminar Portfolios 2. Students will take a "personality test" and reflect on the results of their test.
Materials Needed:	**Materials** 1. Overhead projector/screen (seminar leader) 2. Laptop computers (students)
Suggested Process:	1. Share any good news that you or students have 2. Inform students about the purpose of Seminar and that successful completion of Seminar activities will give them a credit needed for Graduation 3. Create a "Google Folder" in Google Drive 4. Take the Crystal Knows Personality Test
Discussion Questions:	**Discussion:** 1. Before you start the activity, ask your students to share any pieces of good news they have (something good that's happened to them since your last meeting – from school, personal lives, extra-curriculars, etc.). Not everyone has to share, but give kids a chance to do this. You can model this by sharing a piece of good news that you have. 2. Once this is completed, inform your 9th grade students that Seminar will become credited activity – meaning, that if they participate and complete the activities and create a 'portfolio' of them, they'll receive a <u>required</u> credit for Graduation. 3. First thing today: You ALL need to create a Google Folder in Drive. Once you create it, simply name your folder YOUR NAME – Last name then first (ex. Smith, John). 4. Once you're in your folder, click on the NEW button and scroll down to "Google Docs" -> "Blank Document" (Seriously, you should all be able to do this by now)

5. Once you have that done, open up a new tab in your browser and go to https://www.crystalknows.com/personality-test

 (you could also copy and paste the link and send this to your students).

You should come to a page that looks like this:

6. You are going to take a personality test (and I'll give you fair warning, it's different you may not like the choices but choose 1 that is most like you and 1 that is least like you - pay attention and answer the questions thoughtfully).

8. Once you have answered the questions, it will ask you take you to your results ("Disc Test" & Type).

- In the next page, just click on "Sign up For a Free Account" and after you've entered your email & password info, it will ask you what your gender, location, and role are (Select Student) as your role and don't worry about entering in a job type.
- Once you've read your reports and clicked through the "Next Boxes" go to "Profile" at the top of the page.

Discussion
- Read your report
  - Does anything surprise you about it?
  - Did you feel like it was accurate? Why or why not?
  - Do the 3 words used to describe you sound accurate?
  - What about it was accurate? What about it was not?
  - Were there any findings that you want to stay the same about yourself? Were there any findings that you want to change?
  - What do others need to know about you according to this?

9. Take a minute to copy and paste the full report from the crystalknows webpage, onto the document you opened in your Google Folder. You can title the document "9th Grade Personality Test"

10. Congratulations – you have your first "Graduation Portfolio" assignment done!
